

2001 Total Solar Eclipse-South Africa The Travel & Aviation Experience

A rare view of the Aircraft one travels on. Our South African Airlines 747-400 In rout from Atlanta. Temporarily disembarking during a fuel stop at Sal Island. The Airport Terminal reminded me of an old Greyhound Bus Station.

South African Air Lines 747-400 at a refueling stop at the Canary Islands on way to the Eclipse viewing location

Victoria Falls Airport-In the background Air Zimbabwe Boeing 737-200, a first generation 737.
